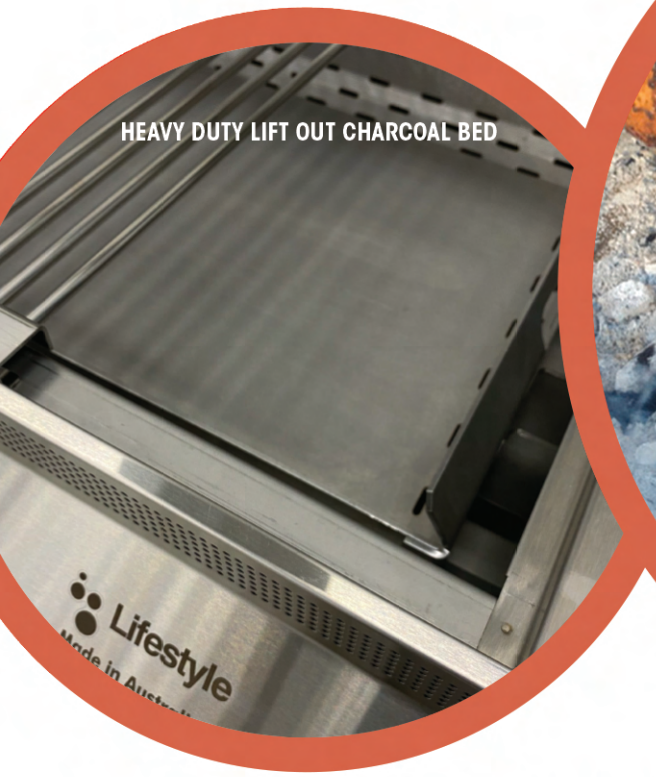
The Lifestyle Charcoal Roaster BBQ

For over 40 years Lifestyle BBQs have been making the finest quality gas BBQs right here in Sydney. In recent years we have added a charcoal version at the request of customers who prefer the unique flavour and aroma that comes with cooking over charcoal.

These are completely separate units to our gas BBQs which is very important when it comes to safety. See the image to the right for an example of having both a gas and a separate charcoal BBQ in your new outdoor kitchen.



With a heavily reinforced charcoal bed that can easily lift out for cleaning, the Lifestyle charcoal BBQ is tough enough to do the job while remaining an attractive addition to your beautiful outdoor kitchen.

Specifications

The design is based on our gas range so all the built-in specifications for the two, three, four and five burner gas BBQs will be the same for the Charcoal Roaster. They are available as built in or free standing mobile BBQs or as part of your new Lifestyle outdoor kitchen.
